FILLING OPTIONS

Manual fill from top

Manual fill from front

Automatic fill

Make sure your Water Filling setting is set to AUTOMATIC.

DRAINING OPTIONS

Direct-to-Drain

Hardware provided with unit.

Waste Bottle

Check and empty regularly, every 4 cycles.

MAINTENANCE SCHEDULE

Daily

Wipe the door gasket clean with a damp, lint-free cloth.

Clean external surfaces with a damp, lint-free cloth.

Monthly or 100 Cycles

Drain and clean both water reservoirs and water reservoir filters.

Inspect and clean the three chamber filters.

Clean the external distilled water tank - if installed.

Clean the chamber rack and trays.

Weekly

Clean the chamber and, if applicable, the waste bottle.

Disinfect external surfaces.

Every 6 Months or 500 Cycles

Perform all the cleaning tasks listed in the monthly schedule.

Replace the bacteriological filter.

Replace the door seal.

Every Year or 1,000 Cycles

A complete maintenance of the autoclave (by a SciCan-approved technician) is recommended.
